Shiba Infinity – Whitepaper (v1.0)

Crypto Gaming • Community • Real-World Revenue

Disclaimer

This whitepaper is for informational purposes only. Shiba Infinity ($SHIBI) is a community-driven meme and crypto gaming project and does not constitute financial advice. There is no guarantee of financial returns. Cryptocurrency investments involve risk. Always do your own research (DYOR).

1. Introduction

Shiba Infinity is a transparent, community-first crypto gaming and meme project focused on organic growth, realistic goals, and long-term sustainability. The project combines blockchain gaming, strong community engagement, and real-world branding through its own energy drink line. Unlike hype-driven projects, Shiba Infinity prioritizes playable products, clear communication, and sustainable revenue models.

2. Mission & Vision

Mission: Build an inclusive, positive, and engaged community around gaming and meme culture.
Vision: Become a recognizable and trusted crypto gaming brand by focusing on transparency, playable products, and sustainable long-term growth.
3. Core Principles

• Community-driven growth • Simple and transparent token model (0% tax) • Playable games before hype • Cost-efficient and realistic marketing • Long-term sustainability over short-term speculation

4. Tokenomics

Token Name: Shiba Infinity (SHIBI)
Total Supply: 100,000,000 SHIBI

Unsold tokens from the public sale will be permanently burned.

5. Utility

SHIBI is used for in-game rewards, competitions, and community tournaments. The token also supports partner game integrations, ecosystem incentives, and brand expansion through the Shiba Infinity energy drink line.

6. Games & Ecosystem

Shiba Infinity focuses on delivering real, playable games on the Apple App Store and Google Play Store. Multiple games are already live or in development, including multiplayer experiences, competitive PvP modes,

partner-dedicated games, and community-driven tournaments.

7. Partnerships
Shiba Infinity has active partnerships with established meme and crypto communities, including Kekius Maximus, Any Inu, Wenpad Labs, and Dipper. These collaborations strengthen cross-community engagement, enable dedicated in-game integrations, and support long-term ecosystem growth.

8. Liquidity & Launch
• Blockchain: Solana • DEX: Raydium • Liquidity Allocation: 30% • Buy/Sell Tax: 0%. The project focuses on fair and transparent launch mechanics.
9. Roadmap (High-Level)
• Game launches and updates • Community growth and tournaments • Partnership expansions • Brand development and real-world integrations

10. Revenue Model (Project Sustainability)
Energy Drinks (Primary Revenue Stream): All net profits generated from the Shiba Infinity energy drink line are reinvested into the project. 50% is allocated to buyback & burn, permanently reducing circulating supply, and 50% is allocated to marketing and growth.

In-Game Advertising: Shiba Infinity games generate recurring revenue through in-game advertising on the Apple App Store and Google Play Store.

Wenpad Labs Partnership: Every meme project launched via Wenpad Labs is integrated into World of Wencraft as a playable character. World of Wencraft is a multiplayer PvP shooter where players can create and manage their own servers.

11. Transparency & Communication
Shiba Infinity is committed to transparency, open communication, and clear reporting. Major updates, partnerships, and buyback & burn activities will be communicated to the community.

12. Conclusion
Shiba Infinity aims to build a sustainable crypto gaming ecosystem centered around community, transparency, and real products. Growth will be driven by engagement and long-term value creation, not hype.
